PRESS RELEASE

CURRENT WEATHER STATUS AND WARNING:-

A Well marked low pressure area lies over SE-Rajsthan and neighbourhood and it is likely to recurve northwards and then North-East-wards and the westerlies trough runs roughly along Long. 70.0 degreeE and north of 30.0 degreeN. Under the influence of these systems fairly wide spread rainfall activity with heavy to very heavy falls very likely over West Uttar Pradesh during next 48 hours.

(J.P.GUPTA)
SCIENTIST-F &
DIRECTOR I/C
